* **Adobe Photoshop CS6** is free at www.adobe.com/products/photoshop.html. ## Adobe Illustrator CS6 Adobe Illustrator is a design and illustration software that uses a vector-based editing system. Vector-based images are perfect for print media because they don't stretch when you zoom in or out. Vector graphics are made up of geometric shapes like lines, circles, squares, triangles, and arcs. The image you create in Illustrator is made up of these shapes. Illustrator allows you to create complex artwork and is also highly customizable. It supports both vector graphics and rasterized graphics. The best feature of Illustrator is its ability to create multiple layers within a single illustration. You can manipulate the outline of individual layers easily and quickly. You can even remove or alter the content of an individual layer without affecting the other layers. Illustrator is very easy to learn and is a very popular program in the fashion industry. With Illustrator you can do all of the following: * Draw, edit, and create shapes and objects to create your artwork * Create text — simple and complex, using any of several font types and styles * Add multiple colors, gradients, and patterns to objects in your artwork * Combine text and illustration * Adjust layer transparency, position, rotation, and size * Design color schemes and organize fonts for your artwork * Design layouts * Design websites Adobe Illustrator is often used to create ad banners and creative logos. There are some important tools in Photoshop that aren't found in Elements that you must use. If you don't mind dealing with an older version of Photoshop, this will be the only time you'll have to learn everything. The New user interface! The new Photoshop Elements UI is different from the previous iterations. There is a lot of new stuff to learn and it was a bit overwhelming for a first-timer. The UI has so many new features and is not as friendly as the old one. There are lots of new icons and weird behavior for all the features. Even though the new UI makes use of the power of Windows 8 UI design, it is still a different user interface. In my opinion, it doesn't feel as "photographer" friendly as the previous interface. a shortfall in the protective belt was a "casual" or "inadvertent" omission, and thus not a breach of duty. See Burns, 659 N.E.2d at 1128-29. 6 The dissent relies upon an excerpt from a deposition of Dr. Binder. However, this testimony is a part of Dr. Binder's deposition that the district court had refused to consider, and thus is not properly before us. We can therefore review only the holding, which was that the record contained no evidence that there was a "causal connection between [this] transmission of HIV and any injury, illness, or disease suffered by plaintiff." Hence, I cannot see how the conclusion of causal connection is compelled by the evidence that the "excessive force" was the only incident that could cause transmission of HIV. It is perfectly possible that someone who is HIV-positive can suffer any injury during a beating, and that the injury would not cause the virus to be transmitted to others 7 The dissent suggests that the availability of the cause of action would have been a deterrent to abuse, and thus deterrence would have been one of the ends of the state. The novel way in which we are called upon to defend this novel social theory makes this a tenuous argument. We can imagine a prison or jail where the staff would believe that plaintiffs would be deterred from the excessive use of force if they knew that it would cause them to contract a fatal disease--but we are certainly not persuaded that this is the case 8 The plaintiffs urge that the fact that the Indiana legislature could not foresee the result of their action is not sufficient to establish vagueness. They note that the Indiana legislature, like legislatures throughout the country, is often caught unaware of the legal consequences of legislation. A vagueness challenge is founded upon the due process clause and implicates the constitutionality of the statute. "The lack of specificity of a vagueness challenge, however, does not mean that the plaintiffs cannot prevail: 'The Court's decisions make it perfectly clear that the void-for-vagueness doctrine is a strongest of presumptions and that it is a command that leans heavily against any attempt to restrict or dilute the freedom of speech and expression.' " Broadrick v. Oklahoma, 413 U.S. 601, 608, 93 S.Ct. 2908, 2913, 37 L.Ed.

The second-annual UFC on FOX Sports 1 1 event is expected to feature many of the top female prospects in the world today, including the man who has split hits with UFC middleweight champion Chris Weidman since 2012 – Bethe Correia. Correia was scheduled to fight Leslie Smith, but the Brit has been pulled from the lineup and will serve as the second half of UFC on FOX Sports 1 1, likely against either Penne or Simpson. Instead, on Nov. 15, Correia will face longtime kickboxer Andrea Lee (11-2) of Spokane, Wash., who has recorded eight stoppages in nine professional wins. Lee is the only fighter in the UFC women's middleweight division who has never been submitted in his professional career. He fought for the Strikeforce and Dream promotions in the past, but now resides in the UFC as the promotion's longest-reigning champion in the women's middleweight division at 18-months. Lee, who is the No. 13-ranked fighter in the USA TODAY Sports/MMAjunkie.com MMA women's middleweight rankings, comes into the fight with the best UFC women's middleweight win streak of her career at three. The 33-year-old has also fought and won in the first two UFC events of 2013, beating Bec Rawlings by TKO by a first-round knockout. For Correia (10-3-1), the season 13 "Ultimate Fighter" alumnus from Curitiba, Brazil, fought her way through the tournament and made it to the finals before she was defeated by Ronda Rousey. She won the first "TUF" fight of Rousey's career with a second-round knockout, but the fight was never made official due to Rousey's coronation as the sport's first women's bantamweight champion. In UFC on FOX Sports 1 1's main event, former lightweight champion Frankie Edgar (18-3-1) of Stockton, Calif., makes his middleweight debut, taking on former UFC light heavyweight title challenger Gray Maynard (24-5), who lost to current light heavyweight champion Jon Jones at UFC 152 in September.// // Generated by class-dump 3.5 (64 bit) (Debug version compiled Oct 15 2018 10:31:50
